# CAPABILITIES STATEMENT

Edgewater Resources, LLC was founded in 2010 with the goal of elevating the value of the waterfronts to achieve their highest and best use, with a focus on planning, design, and engineering solutions for shorelines, harbors and marinas and water dependent activities. We specialize in the visioning, economic and physical feasibility, condition assessment, marketing, planning, design, construction and operation of facilities and assets. Our mission is to leverage natural strengths to identify and implement projects that foster long term success within a context of social, environmental, and economic sustainability. Our team includes professional engineers, architects, landscape architects, surveyors, as well as Board Certified and LEED Accredited Professionals.

## CORE COMPETENCIES

- Harbor/Marina Planning, Design, Engineering, Coastal Engineering, Wave Studies, and Sediment Modeling
